BANDITA RATH

SENIOR SOFTWARE ENGINEER

PROFILE

With over 3 years of experience as a Senior QA Engineer, I excel in Agile and Scrum methodologies, optimizing test processes and ensuring effective defect documentation for top-notch software solutions. I am now seeking a rewarding career offering growth opportunities where I can leverage my skills and experience for mutual success. My aim is to contribute to an organization's success by channeling my knowledge and abilities effectively.

EXPERIENCE

CAPGEMINI [SENIOR SOFTWARE ENGINEER]

[May 2021 – Apr 2023]

Project Name: HSBC Bank Limited

- Proficient in all phases of SDLC Models and Software Test Process, including Test Planning, Test Design, Test Execution, and Test Closure.
- Generated test scenarios based on Business and Functional requirements and authored test cases grounded on the collection of test data.
- Contributed to the development of test plans, test assertions, and test suites for both manual and automated testing.
- Analyzed the Business Requirements Document, contributed to the Test plan, and formulated detailed Test cases for new functionality. Proficient in crafting test cases in TestNG framework.
- Applied hands-on experience in conducting Accessibility, Regression, Functional, Compatibility, Web and other types of Testing.
- Interpreted the test plan and prepared the test data for test cases, proficient in reporting bugs and tracking defects via Jira tickets.
- Delivered application support as needed, proficient in REST-API testing using Rest Assured framework.
- Contributed to various projects such as Loan closure, Change contact details, Address updating on Mobile and Web Applications.
- Applied expertise in different Testing Methodologies like Agile and Waterfall Model, aligning testing processes with industry best practices.
- Collaborated with QA Engineers to formulate effective testing strategies and comprehensive test plans, fostering a culture of quality excellence.
- Reviewed and analyzed system specifications for Mobile testing.
- Executed test scripts and reviewed results, adept at reporting and documenting technical issues.

HERMES I TICKETS [CUSTOMER SUPPORT EXEC.]

[April 2019 – Nov 2020]

Project Name: HSBC Bank Limited

- Compiled test scenarios and drafted test cases based on the collection of test data, ensuring comprehensive test coverage.
- Executed Test Batches, meticulously analyzed Test Results, and provided insightful recommendations for improvements.
- Tested the application efficiently utilizing the Scrum (Agile) methodology, contributing to the rapid delivery of high-quality software.
- Conducted diverse types of testing including Functional, Integration, Accessibility, Regression, and Compatibility, ensuring robust software performance.
- Demonstrated adeptness in preparing and executing test cases using Selenium [Web Automation], enhancing testing efficiency and accuracy.
- Proficiently wrote test cases in TestNG framework, ensuring comprehensive test coverage and efficient test management.
- Contributed to the development of test plans, test assertions, and test suites, strengthening the overall testing strategy.
- Played a pivotal role in preparing test strategy and test artifacts, ensuring successful test planning and execution.
- Analyzed Business and Functional requirements to discern and prioritize test scenarios, ensuring thorough test coverage.
- Reported bugs and effectively tracked defects via Jira tickets, facilitating seamless issue resolution and software improvement.

SKILLS

- Agile Methodologies
- Scrum Frameworks
- Test Case creation
- JIRA and Confluence
- Testing Techniques (Manual / Automation / Mobile / Web / Selenium)

STRENGTH

- Leadership skills
- Learn from mistakes,
- Self-motivated,
- Can think out of the box,
- Able to perform under pressure.
